

YWAM DNA ASIA

JANUARY 15-26, 2017

BATTAMBANG, CAMBODIA

DNA Infusion is a two-week YWAM leadership event that will impart YWAM's DNA and equip you to lead us into the future according to God's ways.

The DNA events will run in multiple languages including English, Vietnamese, Chinese, Thai, Khmer, Burmese, and any other languages that are needed.

UoFNB BATTAMBANG

YWAM Global

Serve - Educate - Develop

DNA refers to the essential genetics of our YWAM tribe and is imparted from one generation to the next through sharing stories and principles of God's leadership over the past fifty years. This impartation will come through inspirational sessions from Loren and Darlene Cunningham, David Hamilton, and others!

WHAT WILL THE OUTCOMES BE?

- We trust that those who come will be refreshed
- You will gain biblical leadership, wisdom, and equipping
- Kingdom networks of relationships will be forged
- Strategies for the region (and the world) will be birthed
- New ministries will be encouraged and launched from the faith-filled environment, as we hear from the Lord together.

Prices are yet to be determined but costs will be kept low to enable as many Asian YWAMers as possible to join.
